Custom MY PRINTER Bluetooth portable mini printer

Ultra-light portable thermal printer mini
USB and Bluetooth, iOS and Android, built-in battery

KEY FEATURES

- Bluetooth and USB
- Autonomous
- Complete impression

Description

The MY PRINTER by Custom is a portable, ultra-lightweight and compact thermal printer. It prints receipts, vouchers and labels directly from a smartphone, tablet or computer.

Bluetooth and USB

It connects via Bluetooth to iOS and Android devices, and via USB to computers. The drivers install automatically under Windows and Linux, and a RS232 connection is possible with a special cable.

Autonomous

Its battery allows for printing approximately 10 m of paper per charge. The belt loop, the charger and the USB cable are included.

Complete impression

Resolution 204 dpi, customer logo, common barcodes and end-of-paper sensor.

Typical applications

- Technicians and itinerant sales representatives
- Delivery, mobile payment and fines
- Account meter readings and incident reports
- Events and temporary points of sale
