Custom MY3 A professional 80 mm portable printer

Portable thermal printer for 76.2 mm paper
USB and Bluetooth, up to 80 mm/s, 2D barcodes

KEY FEATURES

- Wireless
- Rich impression
- Compatible

Description

The MY3 A de Custom is a portable printer designed for intensive professional use. It prints on paper 76.2 mm wide up to 100 g/m², at a speed of up to 80 mm/s.

Wireless

The Bluetooth link (SPP profile, RS232 serial emulation) allows printing from a mobile terminal, tablet or smartphone, and USB 2.0 from a computer.

Rich impression

It memorizes 4 logos at 576 x 460 points and prints the common 1D barcodes as well as the PDF417 and Datamatrix 2D codes.

Compatible

Self-installing drivers for Windows, Linux, Android and iOS. End-of-paper and head temperature sensors.

Typical applications

- Field services and maintenance
- Transport, logistics and delivery
- Control and verbalization
- Mobile collection
