Kiosk printer 60 mm Custom TG2460H

60 mm thermal receipt and ticket printer for kiosks
Metal chassis, cutter rated for 1 million cuts, USB and RS232

KEY FEATURES

- Designed for the terminals
- Complete sensors
- Impressions

Description

The Custom TG2460H is a 60 mm thermal receipt and ticket printer designed to be built into kiosks and vending machines. It combines mechanical robustness with a print speed of over 140 mm/s.

Designed for the terminals

The zinc-aluminum alloy metal chassis, the more than one million cuts capacity and the filling and ticket retraction sensors ensure unattended operation.

Complete sensors

Head temperature, paper presence, anti-jam, ticket removal, paper end and, as an option, paper near end: the kiosk always knows the printer's status.

Impressions

Resolution 203 dpi, 1D barcodes and QR codes, European, international, Nordic, Chinese and Russian fonts.

Typical applications

- Payment and order forms
- Parking and ticketing machines
- Queue management kiosks
- Lockers and vending machines
