Mini panel printer 58 mm Custom PM2 MINI

Mini panel-mount thermal printer, 58 mm paper, 98 g
USB, RS232 and TTL, from -20 to 70 °C

KEY FEATURES

- Ultra compact
- Simplified opening
- Easy integration
- Paper savings

Description

The PM2 MINI from Custom is a mini thermal printer for 58 mm paper. Ultra compact and lightweight, it has been designed to fit into instruments and equipment where every millimeter counts.

Ultra compact

At 98 g and 61.2 x 87.2 x 62.8 mm, it takes a Ø 30 mm roll and fits into portable devices and narrow front panels.

Simplified opening

Its new ergonomic design makes loading the paper simple and quick for the end user.

Easy integration

It connects via RS232, TTL or USB, with Windows, Linux and Android drivers. Its 4 to 8 VDC power supply is suitable for battery-powered equipment.

Paper savings

Its paper-saving function reduces consumption, and the 200 dpi print quality remains clear for text, logos and barcodes.

Typical applications

- Medical and laboratory instruments
- Workshop and diagnostic tools
- Balances and weighing instruments
- Portable measuring devices

Technical specifications

Impressions

Technology	Thermal, fixed head
Resolution	200 dpi (8 points/mm)
Columns	13, 17 or 22 cpi
Speed	Up to 60 mm/s
Head lifespan	100 km / 100 million pulses

Non-contractual document. Specifications subject to technical changes. Edition 11/2026.

Paper

Paper width	57 to 58 mm
Weight	55 to 70 g/m²
Roller diameter	30 mm
Cup	Manual tearing bar

Electric and mechanical

Interfaces	TTL, RS232, USB
Nutrition	4 to 8 VDC
Typical consumption	2.7 A
Sensors	Head temperature, presence of paper
Dimensions (L x l x H)	61.2 x 87.2 x 62.8 mm
Weight	98 g
Operating temperature	-20 to 70 °C

Software

Emulations	CUSTOM/POS, PLUS
Pilots	Windows (32/64 bits), CUPS Linux (32/64 bits), Virtual COM Linux and Windows, Android
Barcodes	UPC-A, UPC-E, EAN-8, EAN-13, CODE39, ITF, CODABAR, CODE93, CODE128, CODE32, PDF417, QR code
