Curved hot water wand with fixed M20 fitting N040004B

Curved hot water wand with aerator
M20x1.5 fixed connection made of 316L stainless steel, flame retardant coating

KEY FEATURES

- Stainless steel construction
- Fixed assembly
- For machine manufacturers

Description

The Italcoppie N040004B is a curved hot water wand with a fixed M20x1.5 fitting in AISI 316L stainless steel. Its overmoulded anti-burn coating protects the user and its support integrates a diffuser for an even flow.

Stainless steel construction

The Ø 10 mm tube made of AISI 304 and the support made of AISI 316L with diffuser guarantee durability and hygiene. Materials compliant with the standards applicable to food contact.

Fixed assembly

The M20x1.5 male connector screws directly onto the faucet, without any articulation: a robust solution for high-traffic stations.

For machine manufacturers

Italcoppie Sensori supplies the leading manufacturers of professional coffee machines. Lengths, connectors, shapes and materials are adapted to your machine, from prototypes to mass production.

Typical applications

- Distribution of hot water for tea and infusions
- Professional espresso machines
- Preheating cups and pots
- OEM manufacturing of coffee machines
