Embedded board Rockchip RK3568 NiceLite-RK68

Embedded board Rockchip RK3568 NiceLite-RK68
Android 11, Ubuntu

KEY FEATURES

- Rockchip RK3568, Quad-core ARM Cortex-A55
- 4GB RAM, 64GB + 1 x Micro SD
- Ethernet, Wi-Fi6 & Bluetooth
- 2 x USB 2.0 & 2 x USB 3.0, 1 x Type C 5V DC
- 1 x MIPI CSI, 1 x 3.5mm Combo audio jack
- 2 x Micro HDMI (extended mode), 1 x MIPI DSI, 1 x 40-pin GPIO (including CAN, UART, SPI, I2C)
- Android 11/ Ubuntu

Description

The Rockchip RK3568 NiceLite-RK68 embedded board is distributed in Switzerland by DYNATIME SA for professional and industrial applications. It combines a Rockchip RK3568 processor and the Android 11 or Ubuntu operating system.

This embedded board (SBC) provides a compact and complete calculation base for developing your equipment: industrial interfaces, network connectivity, and video outputs are integrated directly onto the card.

Typical applications

- Development of OEM products
- IoT gateways and edge computing
- Controllers of machines and automation
- Displays, dynamic display and HMI

Versions and options

Version 1	2.0GHz, 4GB, 64GB, 1Top, 2xMicro HDMI, 1 x Type-C Power, 4xUSB, MIPI DSI, 3.5mm Audio Jack, MIPI CSI, 1xRJ45, 40-PIN GPIO, WIFI5, Android
Accessory	Antenna and Wi-Fi cable (recommended)
Accessory	Power adapter (US, CN, UK or EU plugs) (recommended)
Accessory	Power cable and USB data cable (recommended)
Accessory	USB debugging card (recommended)
Accessory	10" LCD screen with touch panel and driver card
Accessory	5 MP camera
Software option	Ubuntu 22.04/Debian12 (to be announced)
