# POS printer 80 mm Custom Q3X

Thermal POS printer 80 mm with a refined design
Frontal output, USB and serial ports, Wi-Fi or Bluetooth option

**KEY FEATURES**

- Frontal exit
- Optimized mass flow
- Choice of connectivity

## Description

The Q3X from Custom is aimed at retail outlets that seek both performance and design. Its thermal head offers excellent print quality, including for graphics, with reduced consumption.

### Frontal exit

The ticket is printed on the front of the printer, which allows it to be installed under a counter or in a piece of furniture.

### Optimized mass flow

The massicot is designed for reliability and meets the intensive usage requirements of shops and restaurants.

### Choice of connectivity

Serial and USB version, or serial, USB and Wi-Fi. A Bluetooth version is also available for mobile devices.

## Typical applications

- Retail trade
- Restaurants and bars
- Retail outlets integrated into a furniture piece
- Cashout on tablet
