Traditional stainless steel steam wand G3/8 E146001B

Stainless steel steam wand with ball joint and anti-burn sleeve
CH22 G3/8 outlet, 4-hole diffuser

KEY FEATURES
- 4-hole diffuser
- Anti-burn sleeve
- For machine manufacturers

Description

The Italcoppie E146001B is a traditional stainless steel steam wand with a ball joint and an anti-burn sleeve. It meets the expectations of baristas used to classic espresso machines.

4-hole diffuser

The 4-hole diffuser Ø 1.5 mm distributes the steam to create a fine and homogeneous milk foam.

Anti-burn sleeve

The protective sleeve lets the barista handle the wand safely during use.

For machine manufacturers

Italcoppie Sensori supplies the leading manufacturers of professional coffee machines. Lengths, connectors, shapes and materials are adapted to your machine, from prototypes to mass production.

Typical applications

- Professional espresso coffee machines
- Preparation of milk foam for cappuccino and latte
- Bar and restaurant machines
- OEM manufacturing of coffee machines
